

MS02 Series

Prysmian FlexRibbon Separator 24F

Slices 24 fiber Prysimian FlexRibbon into 2 x 12F ribbons. This tool provides consistent, damage-free separation of FlexRibbon.

Features

- Ultra-Sharp, precision carbon steel blade slices matrix without damaging fibers
- Precision ribbon channel to accurately guide ribbon into blade
- Arched ribbon channel to provide consistent friction and downforce to align fibers
- Magnetic clamping pin for added security and handling ease
- Onboard brush, used to ensure blade is free from debris

Part #	Item description	Cable Compatibility	Cable Size
MS02-7000	Prysmian FlexRibbon 24 Fiber Separator	Prysmian FlexRibbon	24 Fiber

Brush debris from the blade edge using the supplied brush.

Open the tool and carefully load the blade between the 12th and 13th fiber. Ensure the ribbon lays flat in the channel.

Close the clamp. Apply even thumb pressure on the ribbon, in front of the blade. This ensures an equal tension on all the fibers.

Pull the ribbon along the arc, slicing the matrix with the blade. Go slow. Slice 1 node every 5 seconds.
